Nations Descended from Noah (The Genealogy of the Christ)

10:1-32

Shem – father of the Shemites, the Semitic peoples of the Middle East. Note one of Shem's descendants was named Eber, which is where the name Hebrew comes from.

Ham – father of Canaan, forefather of the reviled Canaanites who inhabited Palestine at the time of Moses.

Japheth – descendants settled in the region of the Aegean Sea (The sea between Greece and Turkey.) Also, the Philistines were his descendants – think of the Philistine Giant whom young David defeated with a stone and a slingshot.
